For us, the secret in raising seed stock lies in the cow herd. When you have the opportunity to get the Show Female of the Year and her dam... well, these are the type that will raise Herd Sires!

Dixie 10M is the dam to Dixie 193R, the 2007 Angus Show Female of the Year which

should tell you she won a great deal of very competitive shows. She was 3 time Reserve Champion Female at Farmfair - first as a heifer calf, then as a bred yearling, and then again as a two year old with her calf at side, National Champion Female in '07, also Supreme Champion at Lloydminster and Saskatoon in 2007.

I love when a plan comes together! To be able to use a legend like Divide 8J, to be able to walk a bull of his magnitude that is 10 years old doesn't come around very often. 8J is an "Elite" sire and has 27 "Elite" daughters, the most famous of which would be the Goldie daughters such as 240L the dam of Fully Loaded, the Brandy daughters and sons such as Cinch, Thirty X, and Digger.

Moose Creek, Lazy MC, Bar-E-L, Ringstead, Ter-ron and Masters Cattle Company have daughters of the legendary 8J.

A unique opportunity to own what could be the next great legend of 8J! 158W has tremendous muscle expression, depth of quarter, is very strong through the fore rib and is a top contender for the greatest bull here today.

Dennis & Paul Bellanger have a son from 158W's dam, 79R, another great Eggen female.

To be able to acquire a bull like 158W will do any program a whole lot of good.

We would like to keep a piece of 158W. Call for details.

224W is a total stand out bull we scored very, very high that can be used on heifers and cows. His dam, 63L, is a Gravity daughter that is a CAA "Elite" cow. Glenrose Angus, Jordan Bandura, Ole Farms and Vikse Family Farm all have 63L daughters in their herds.

It's interesting to note that three out of six 97P sons will be in the carousels on sale day. 224W was ranked 14th out of 70 bulls for his 205 WW. Who says heifer bulls can not perform?

Smokin Jo has done a "smokin" job for us, stamping his progeny with a very deep quarter, deep body and easy fleshing ability.

Smokin Jo is sired by Indeed, the "Elite Sire" for Six Mile that has made an impact on their program like no other sire has. We purchased Smokin Jo with Ringstead Ranch for \$20,000 and I know he is going to point us in the right direction. His dam, 360J, was the dam to the Supreme Champion bull at the World Angus Forum in Calgary this summer.

A Gravity daughter crossed with Smokin Jo, I would say 193W is certainly worth checking out. The maternal grandam, 167G, is an "Elite" cow and 66N is certainly on her way. We have two 66N daughters in our herd and Goad Family Angus have a daughter, 107T (one of Brenda Goad's favorites) working in their herd. 107T was in our Champion Pen of Five Purebreds at the Canadian Bull Congress.

We are just getting started with our black program and want to start with the best foundation females we could get. We purchased 42R for \$11,500 at the LLB sale. She is sired by a really outstanding Hamilton Farms son, Free Wheeler. Truly superb genetics from an outstanding cow family.

161W is a very balanced bull that will pass on maternal and performance in a complete package.

"Tip the Scale" Guest Consignment from Goad Family Angus

See you on Family Day!
 The Goad Family - Vern, Brenda, Cole & Kristen
 (Lot #77 & #78)

Goad Family Angus
 Vern, Brenda, Cole & Kristen Goad
 780-853-0497

Welcome! It is truly an honor to be able to partner with Vikse Family Farm and bring to you the 5th Annual "Tip the Scale" Bull Sale. Goad Family Angus is still just starting our adventure into the purebred business and what fun we have had with the Vikse Family Farm so far! Thank You to Dave, Tracee, and family for all the help that they have provided to us.

We are limited on our number of bull entries this year as we are truly still just starting out, but we feel that we are not limited on quality. We believe that it is not about the quantity of females and sires you have, it is about the quality of those animals.

The two bulls calves that we bring to the sale today are sired by Canadian 24T, a high seller that we purchased from the 2008 "Tip The Scale" Sale, they have both a special spot with us and coming from first calf heifers.

Goad Family Angus believes in the future of the cattle business and that our bulls will work for you and look great for years to come. This year we are feeding a pellet ration from Country Junction Co-op in Wetaskiwin that has ZERO grain (no starch). We want the bulls to grow and develop and not burn out. We will stand behind our bulls 100%; they come with the same guarantee as any Vikse bull.

The future comes faster than we can hope and time flies by faster than ever. There will be days again when cattle are at the top of the markets. Let's all be prepared for the future!

If you have any questions or are not able to make it Sale Day, be sure to give us a call and we will be sure to help.

See You Sale Day!

The Goad Family - Vern, Brenda, Cole & Kristen

"Sight Unseen" Purchase Plan

If you are unable to attend Sale Day, you may call or send bids to Vikse Family Farm or any member of our sales management team. Those who are interested in this plan are urged to contact Vikse Family Farm or the sales management to discuss your bull requirements and determine a budget. Every effort will be made to buy you the right bull or bulls, at the right price to make you a completely satisfied customer.

If for any reason you are not satisfied with any of the cattle you purchase on order, you are under no obligation to accept them.

Catalogue Available Online At:

Canadian has left a very outstanding set of progeny in his first calf crop. Unfortunately he sustained an injury this summer and was no longer able to breed. We purchased Canadian from the 2007 "Tip the Scale" Bull Sale as the high seller that year. Canadian's pedigree makes him very special with his sire being the mighty Mulberry 26P whose progeny has been appreciated all over the world. and his dam who we were able to purchase from the Tom Arnett dispersal, is now "Elite" and is a direct daughter of Sensation.

Reference Sire I - Red Vikse TA Canadian 24T

Canadian was displayed at the 2009 World Angus Forum and was appreciated for his length and width of body, which he has been passing along to his progeny; *however there are not a lot of progeny of his around so you'll want to be sure to get a son well you can.* We believe that his sons will go out and breed to continue on his surpassed performance.

RED GOAD MOLSON CANADIAN 2W

A stand out since birth, Molson is going to be a highlight of his sire (Canadian). Molson's dam (2T) is a moderate framed female that has a wide hip with lots of angularity to her, and has one of the best udders that I have seen - just ask Dave, he has seen how good her udder is and he can't believe it. Molson has been a favorite of a lot of neighbors that have come over this year for his wide top, depth of body and quarter and for his natural muscling.

Terms to be Announced Sale Day.

Lot #77 - Red Goad Molson Canadian 2W

2W will be exhibited at the Camrose Bull Congress and will be sure to open some eyes. Be sure to stop by and have a look at Molson Canadian, as he will make you want to have one.

RED GOAD HARPOON 742W

Harpoon is a very young bull (April 2) but in no way lacking performance. On December 11th he weighed in at 1000 lbs, which is not a surprise considering his mom is 742T, a member of our "Pen of Five" that won Grand Champion Purebred Heifers at the 2008 Camrose Bull Congress. It is also noteworthy that she is a daughter of 42M (elite) that has produced a number of top performing bulls, her best being Top Cut for Vikse Family Farm.

Terms to Be Announced Sale Day

Lot #78 - Red Goad Harpoon 742W

Harpoon surprises us each and every day with the how well he is performing and how good he looks for only an April 2nd calf!

"Tip the Scale" Feeding Program

WETASKIWIN CO-OP

Nutritionally enhancing the next generation of cattle

A complete line of Country Junction cattle feed that is trusted in feeding over 2500 Bulls in 100 top Ranches across Alberta

Introducing the Right way family of feeds from Country Junction Feeds. These feeds are specifically designed to provide the energy required for good growth, but do not use starches (grains) in the ration. **GAIN WITHOUT THE GRAIN.** Country Junction Right Way Rations can be fed to all gender and ages of cattle resulting in a long and productive reproductive life. The Country Junction family of Right Way Rations are a high energy, highly digestible fibre based feed that can provide as much energy as a barley based ration, but contain no harmful starch (grain). In addition, all of the Right Way family of rations contains chelated minerals, including chelated selenium, and Vegetable source Vitamin E. These chelated mineral sources and Vegetable source Vitamin E give the animal a higher level of these nutrients in the blood stream. Higher levels of these nutrients lead to better scrotal development in growing bulls and better reproductive life on the female side. In addition, these little extras lead to a better immune system in the animal.

Another very significant advantage to the Right Way family of feeds is the transition from growing animals to breeding animals. Because these rations are a fibre-based ration when these bulls and heifers go to pasture, they will not lose tremendous amounts of body condition. Sometimes called the **NUCLEAR MELT-DOWN**. We have trained the rumen in these animals to achieve good growth on fibre and not starch (grain). Then when they go to pasture they continue to use the energy from the pasture and do not have to re-grow the rumen microbes (if they were fed on a starch (grain) based ration).

All of the Right Way family of feeds contains high levels of all trace minerals and vitamins. These levels lead to better skeletal growth, better overall health of the animal and better and earlier reproductive life in both growing bulls and heifers.

For more information, please call Brian Malmas:

Country Junction Feeds @ 1-800-729-9155 or 1-780-352-9155

E-mail: bmalmas@wtc.ab.ca

"Tip the Scale" Terms & Conditions

1. Unless previously arranged with Vikse Family Farm, terms of this sale are **cash or cheque payable in Canadian Funds**. No release will be given until satisfactory settlement has been made.
2. **Bulls:** Every animal entering the ring will be sold to the highest bidder. In the case of a dispute the auctioneer's decision is final.
3. **Any changes** from information in this catalogue will be announced from the auction block, such changes will take precedence over printed matter in the catalogue.
4. **Purchaser's Risk:** Each animal becomes the risk of the purchaser as soon as sold. Insurance will be available sale day.
5. **Delivery:** Free delivery of bulls to central points. We will winter bulls free of charge until May 1, 2010. Bulls left after this date will be charged a fee of \$1.50/day for board.
6. **Liability:** Everyone that attends the sale does so at their own risk without any liability to the owners.
7. **Breeder's Guarantee**
All animals sold are guaranteed breeders. Any animal that has not proven himself during the 2009 breeding season and was not neglected by the buyer can be brought back and replaced with a warranty bull or given credit toward next year's sale.

Thank You to the 2009

"Tip the Scale" Bull Sale Buyers!

The Vikse Family Farm knows that their efforts and excitement to have the top genetics would not succeed without you wanting the best genetics available to continue improving your herds.

We would like to extend our thanks to all the following people for their support and enthusiasm in making the cattle industry an enjoyable and exciting live style.
